## Wannado City

Literally the kids can do what they want to do. Our vision is to empower kids through the creation of reality-based, experiential properties which entertain and educate. Wannado City encourages kids to be independent from their parents and engage in activities with other kids around the park; if your child is independent enough to interact with other children and our team members, he or she will be able to take full advantage of Wannado City. For the smaller ones to enjoy with their families, we offer a Toddler Area, 5 rides in our City Fair, VIP bus tours, family oriented theater plays, a spectacular circus show, and more!

## Imax Theater at the Museum of Discovery

Spend a day of discovery exploring over 200 fascinating interactive exhibits at the Museum of Discovery and Science! See sharks and the largest living Atlantic coral reef in captivity, hang out with bats, be charmed by a 12-foot snake, plus pet alligators, turtles and iguanas. Test your pilot skills in nine cockpit simulators and learn about Florida's amazing Everglades in the Living in the Everglades exhibit. Discover our place in aerospace at Runways to Rockets, our space exhibit, and take a simulated trip to the Moon or Mars. Make it a play date at the Discovery Center, designed especially for children under seven.

Of course, no visit is ever complete without experiencing an IMAX film adventure on the five-story-high screen at AutoNation IMAX Theater, home of the BIGGEST screen in South Florida. With an 80 ft. x 60 ft. screen and 15,000 watts of digital surround sound broadcasts from 42 speakers, The IMAX Experience is truly an unparalleled fusion of sight and sound.

## Children's Museum

Get ready for an exciting adventure! In Earthworks, you will learn about the three Rs: Reduce, Reuse and Recycle. The Youth will discover the importance of ecology and how people can "clean up with art" to help save the Earth through creating their own recycled art with hands-on cultural, educational and arts experiences for youth that awaken their creativity in a fun and exciting environment. Teaching children about protecting and conserving the environment is important to our Earth's future. Through hands-on exploration of the dynamic and inspirational activities, youth will not only learn the three Rs but also learn how trash can be turned into art, parks and other products that we can all use.
